

Premium Fiberglass Entry Doors

2020-2021

CELEBRATING
25th
ANNIVERSARY
1996-2021

MENNIE
CANADA

Welcome to the Mennie Family!

The gateway to prestige homes in Amsterdam, Barcelona, Dubai, London, New York, Paris, Sydney, Milan and more.

Our fiberglass doors are energy saving, secure, and are more durable than any other entry door product on the market. As a leading industry manufacturer, we have a dedicated team of designers and engineers that collaborate to bring you the best fiberglass doors in the world, incorporating luxury, class and innovative design.

DOOR FEATURES

DOOR FEATURES

MENNIE CANADA

SURFACE TEXTURE

Our superior oak and mahogany textured skin technology with “High Definition Panel Embossments” provide an authentic wood finish look. Mennie achieves the real feel and look of a wood textured surface without the disadvantages that come with it [i.e.: fading, rotting, warping, etc.].

COMPOSITE RAILS ON ALL EDGES

Our fiberglass doors have composite [PVC] rails that surround the perimeter of the panel making them 100% water proof. The mortise and tenon joints provide exceptional strength that prevents any movement of the door components, which is one of the reasons why we offer lifetime warranty!

LVL LUMBER COMPONENTS

LVL [Laminated Veneer Lumber] is the strongest man-made wood material. We created the world's first PVC LVL cap wrap with a tongue-in-groove rail lock system giving our doors a solid frame structure with complete moisture barrier.

DOOR CORE

Our door core is made of high-density CFC-free polyurethane foam, providing six (6) times the insulation of a traditional wood door. With this added insulation also comes superior sound proofing.

PANEL DESIGN

Both our EXECUTIVE panel and RECESSED panel doors easily meet the demanding contractor and customer needs. The elegantly detailed architectural panels feature deep shadow lines that add to any home's strong curb appeal.

COMPOSITE DOOR JAMBS

HIGH DEFINITION LASER PRESS TECHNOLOGY

First of its kind in the world!

Mennie uses a high definition laser press to adhere the woodgrain skin onto the jamb surface, which achieves an authentic wood finish look of Oak, Mahogany, Fir and Cherry.

Mennie never cuts cost. We strive to be an industry leader by offering materials of high quality and reasonable pricing.

HIGH DENSITY COMPOSITE FRAME

Mennie composite jambs have over 40% more density over the rest of competitors in the marketplace. The unique process of producing composite components through hot-press moulding exhibits excellent dimensional stability, improved interfacial bonding and strength.

In other words, Mennie has created the most durable composite components available on the market now.

U-SHAPE CARBON FIBRE REINFORCEMENT

Our new U-shaped carbon fibre reinforcement is embedded into the composite door jamb to strengthen the structure and decrease any flex in the material that may be caused by fluctuating temperatures.

With Mennie's innovative technology and reinforcement, warping and difficulties with installation is a thing of the past. We take pride in offering you a Canadian product that withstands the Canadian climate.

3MM FIBERGLASS SKIN

Mennie finds our customers are much more creative these days. Some use their own CNC machine to groove their own designs on the door. Mennie has a door just for that – Our 3mm thicker skin Mahogany Flush Collection The door will let you to create something unique and different!

ZEEL GLASS FRAME BY ODL

MEET ZEEL

ZEEL is a sleek, versatile frame designed to be stained or painted that blends seamlessly into the entry door, allowing the doorglass to take center stage.

This clean, low-profile look offers an alternative to flush glazed doors that provides the benefits of a frame system with the style homeowners desire.

Traditional frame space warp when subjected to severe temperature changes or direct sunlight exposure, especially when painted dark colors.

FiberMate Plus is our strongest material yet and exceeds performance expectations in extreme environments.

Resolve sealant is immune to squeeze out and doesn't degrade over time, reducing service calls and warranty issues. This clean thermoset foam seal can be repositioned and stays consistent over time.

Zeel eliminates the need for screws and cumbersome screw hole covers with an innovative clip system.

This allows each frame to sit flush, streamlining installation and greatly reducing installation time and effort. This efficient installation offers an alternative to costly flush glazed doors.

AVAILABLE SIZES: 20"X64", 22"X64", 22"X80", 22"X48", 22"X36", 22"X17", 8"X80", 7"X64", 8"X36"
