Our continuing program of product improvement makes specifications, design and product details subject to change without notice.

There's been a broad trend towards design simplicity for some years now, and it shows no signs of slowing down. Focus is shifting towards a more balanced contemporary lifestyle. Society is enjoying more open space with clean straight lines, a minimalistic approach with bold accent colours. It is a time where individuality is celebrated and our living space is bursting with personality. Inviting eclectic styles are more common – deriving ideas, from a broad and diverse range of sources. There is an undercurrent of deep appreciation of craftsmanship. Textures such as stone, wood and other natural elements are proudly displayed in our homes.

This has not gone unnoticed and in response, Tru Tech Doors has aligned our vision with this shift. Our entrance doors reflect that movement in providing that signature look.

URBAN DOOR SERIES

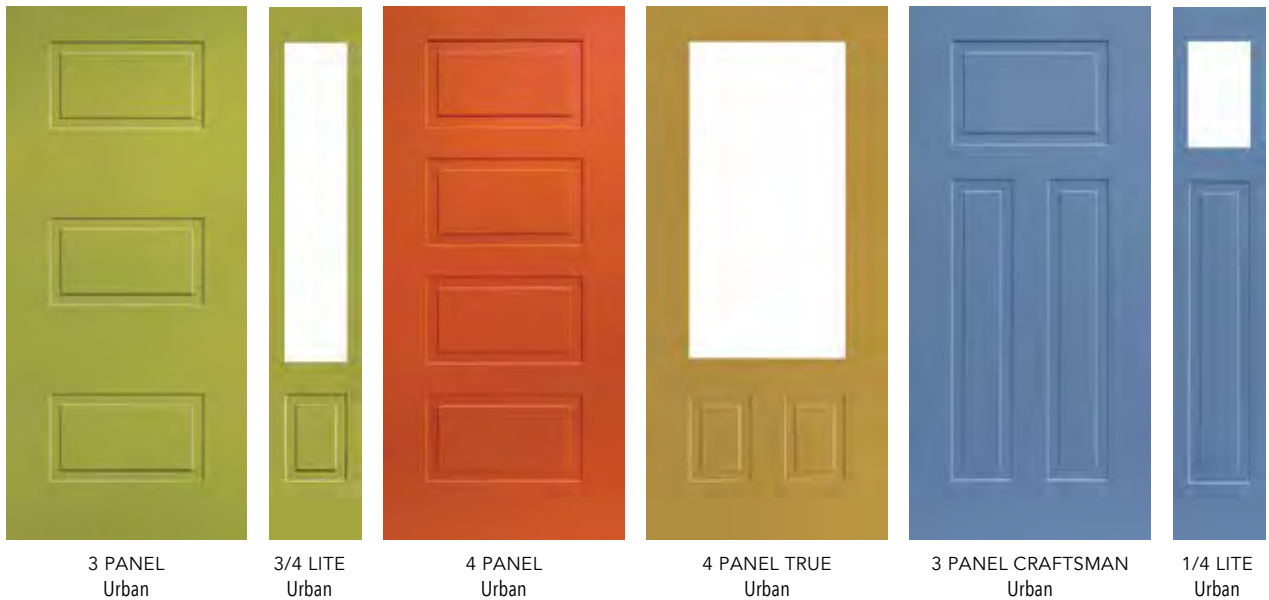

Strength Superior rust inhibition and polyurethane foam core.

Durability Top quality 24-gauge galvanized steel construction offers superior durability and tested performance.

Security Solid reinforcements ensure that hardware is mounted securely.

Construction Urban door series carry wood-edge or steel-edge door construction.

Glass Clear, textured or decorative glass options reflect an entrance with distinctive style.

We value the elements of a strong customer relationship. In response, we've developed a comprehensive understanding of the essential features that allow our customers to express their individuality. This drives us to use our fundamental vision and insight into making superior and sustainable products for many years to come.

URBAN

DOOR SERIES
WITH GLASS OPTIONS

8' 4 Panel Urban
Calandra Glass

Passion is one of the key elements towards building a beautiful door. A dynamic use of space is the motivation behind this design series. This is a series, inspired by a current trend to reflect the home owner who thrives in a space uniquely modern. It is a statement door.

HARBOUR CRAFT® CONTEMPORARY

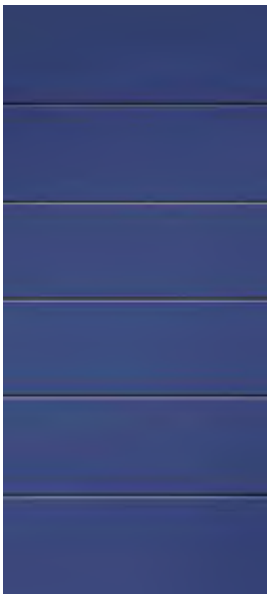

FIBERGLASS DOOR SERIES

Grain Multiple grain options are available in fiberglass – smooth, oak and mahogany textures.

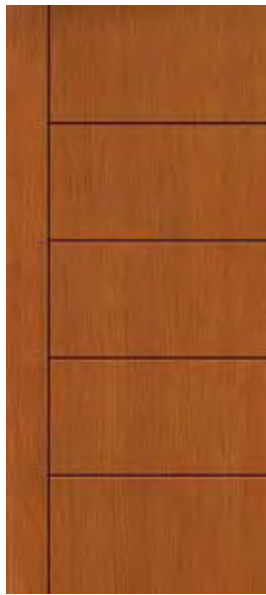

Durability Top and bottom rails are constructed from rot free composite material. Molded fiberglass skin, and polyurethane foam core combined with engineered wood stiles provide superior thermal performance, strength and durability.

Security Door stiles are constructed with engineered 2" hinge and 4" latch stiles.

Construction Engineered wood is stronger, free of knots and more rigid than traditional wood stiles, resisting shrinking, bowing and twisting.

BELMONT® FIBERGLASS DOOR SERIES

Grain Multiple grain options are available in fiberglass – smooth, oak, mahogany and rustic. Belmont’s ultra smooth finish features a unique brush stroke surface that’s ideal for painting.

Durability Top and bottom rails are constructed from rot free composite material.

Security Door stiles are constructed with engineered 2” hinge and 4” latch stiles.

Panel Profile Belmont features distinctive and deep high definition moulded door panels.

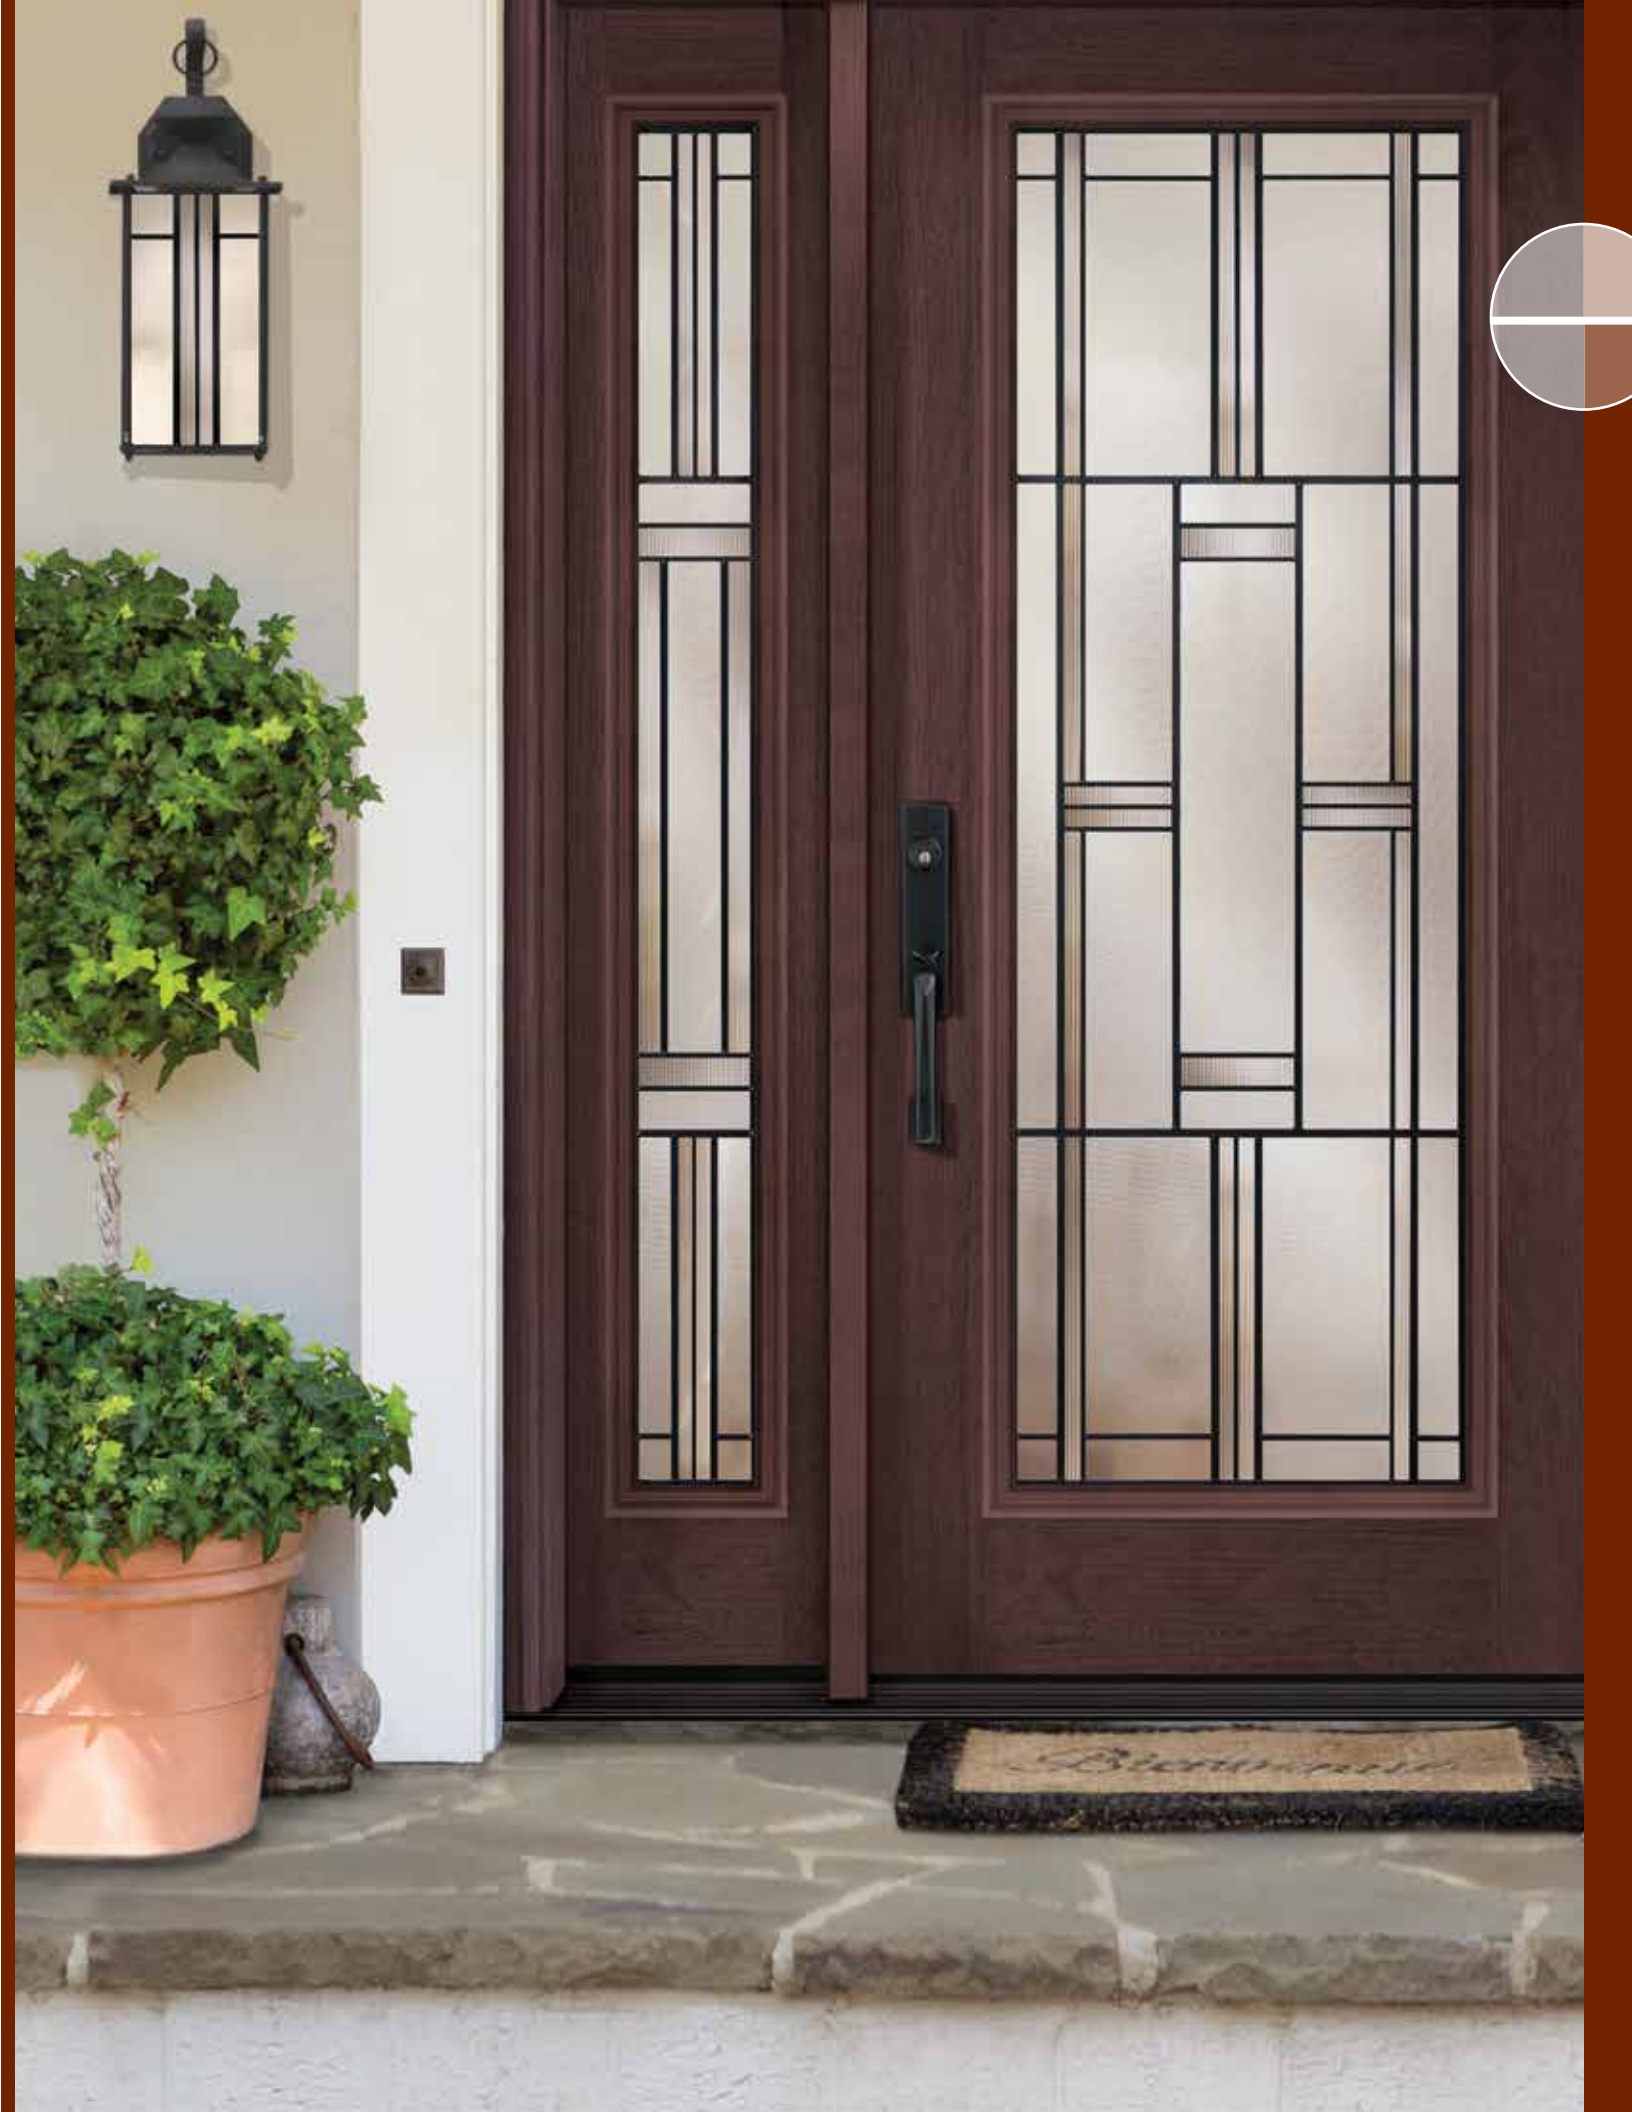

Construction Polyurethane foam core combined with engineered wood stiles provide superior insulation value and structural integrity.

Fire Ratings Selected Belmont fiberglass doors are available as 20-minute positive pressure fire tested.

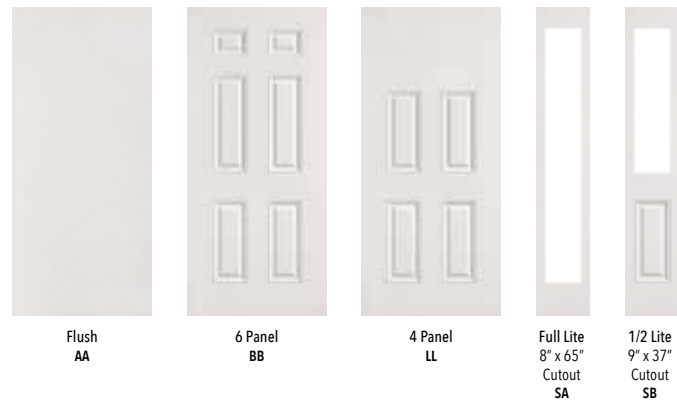

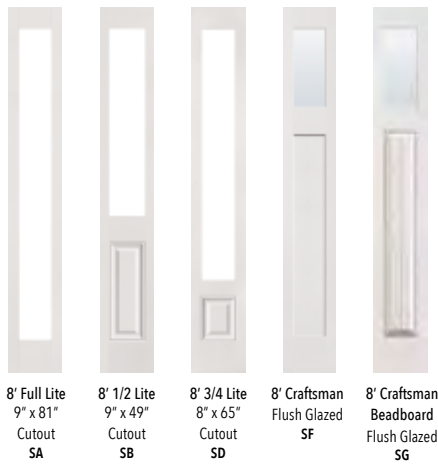

Stiles constructed from LSL material are stronger and more rigid than traditional wood stiles or laminated veneered lumber (LVL). The patented LSL manufacturing process creates a door stile that resists bowing and warping.

Extensive style, deep panel designs, selection and grain texture options make the Belmont an ideal choice for any entrance. This 100% North American product mimics the grain, texture and construction of a handcrafted hardwood door. Molded fiberglass skin, and polyurethane foam core will provide superior thermal performance, strength and durability.

Belmont® Mahogany Series 6'8" & 8'0"

Belmont® Rustic Mahogany Series 6'8" & 8'0"

Clavos are hand forged from metal to create an authentic old world look that enhances the appearance of the rustic door.

HD STEEL DOOR SERIES

Strength Superior rust inhibition and polyurethane foam core.

Durability Top quality 24-gauge galvanized construction offers superior durability and tested performance.

Security Solid reinforcements ensure that hardware is mounted securely on wood-edge or steel-edge doors.

High Profile Steel Pro® and Steel Mark® doors feature high definition panels in a wide variety of panel designs.

Construction Steel Mark series carry an option of Wood-Edge or Steel-Edge door construction. The Steel Pro series features Wood-Edge door construction.

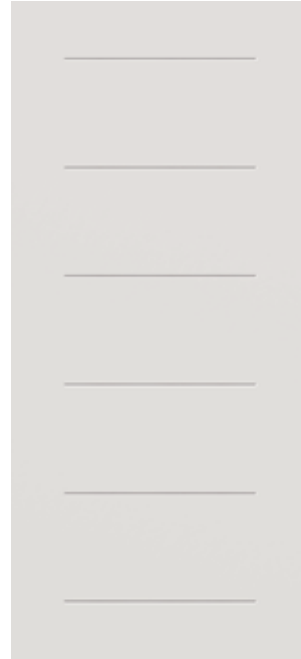

Fire Ratings 20-minute fire rating options are available on select Steel Mark doors.

Steel Pro® Construction Series

Steel Mark® HD Builder Series

Steel Mark® HD Plus Series

Steel Pro Construction series features 25-gauge steel, wood-edge construction with 13/16" wood stiles and a polyurethane foam core.

Steel Mark HD Builder and Steel Mark HD Plus features 24-gauge steel and offers either steel-edge or wood-edge construction. All Steel Mark doors feature polyurethane foam cores for superior thermal performance. Wood-edge doors use 1 1/8" wood stiles.

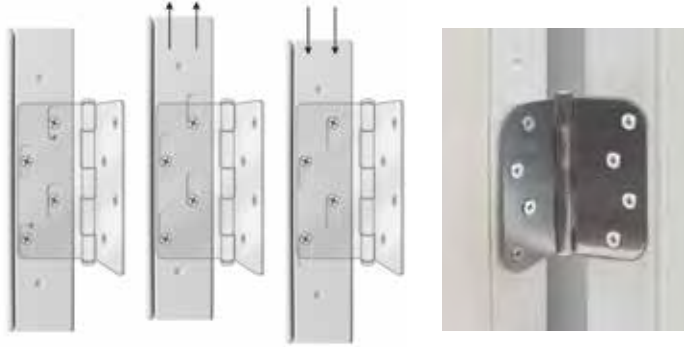

Steel Mark® Wood-Edge and Steel-Edge construction.

Providing a portfolio of products ensuring the right HD Steel door for your project. The polyurethane foam core offers superior thermal performance and added door strength. Beautiful, strong, secure.

Steel Pro® Construction Series 6'8"

Adjustable Hinge Prep for Steel-Edge Doors

Adjusting the door during normal pre-hanging and installation should not be necessary; as the door leaves the factory with the hinge reinforcements pre-set at correct locations.

During the lifetime of the door it may become necessary to adjust the door due to the normal settling of the house. Having a door with an adjusting hinge feature is perfect for this situation.

Internal Grill

White 5/8" Flat Grill

Set in between glass, our internal grills make dirt and dust a thing of the past. To ensure your door is as beautiful as it is energy efficient.

TRU VIEW®

RAISE LOWER & TILT MINI BLINDS

Blind Mechanism Blind mechanism designed with style and functionality in mind.

Interior Blinds Raise Lower & Tilt Mini Blinds are fitted between the glass. Blinds can easily be adjusted to allow just the right amount of light, so you can enjoy privacy without the cleaning.

Low-E Our designs feature Low-E, reflecting heat back to it's source, maintaining a comfortable environment, protecting against and reducing UV fading of nearby furniture or drapes.
